[REDACTED] Comment:

The report confirms and supplements previous information on the 6th Inf Div of October 1948. The 16th Inf Regt was assumed to be in WADOWICE and the 18th Inf Regt in KRAKOW. However, as the above report is given more credence, the assumed disposition of the division will be revised. The reported strength of the 6th Inf Div (5,000 to 6,000 men) agrees with the previous assumption that a Polish infantry division may have an average strength of about 5,000 men.
